

INFO6007 Week 13 – Answer Guide Revision Activities (Set 2)

Part 1 – Quick Quiz Battle (MCQ Answers)

Q1 Answer: a) Transformational

Q2 Answer: b) Strategic Oversight

Q3 Answer: b) Users achieve desired outcomes

Q4 Answer: a) Face-to-face or video meetings

Q5 Answer: b) Steering Committee

Part 2 – Scenario-Based Practice Questions

Leadership & Team Management

A suitable strategy is transformational leadership. Recognising team achievements, providing encouragement, and supporting collaboration can improve morale and motivation.

Governance

Governance ensures compliance with legal, regulatory, and security requirements while providing accountability and oversight. In government projects, governance helps ensure strategic alignment and risk control.

ITSM Value Creation

According to ITSM principles, services only create value when users can effectively achieve desired outcomes. Poor usability reduces customer satisfaction even if the system is technically functional.

Communication Management

One effective strategy is implementing regular structured meetings and shared collaboration tools. This improves consistency, coordination, and information sharing across teams.
